Ethical Framework for a Global Security System

Study War No More: A Concerned Citizens Study and Action Guide

• (Lesson 1) In search of global security: what makes us "secure?"

| Guiding Principle | Source (framework) | What aspects of the present system of security does this principle challenge? |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| *sample 1: assure human dignity of all *sample 2: basic human needs of food, water, shelter are met *sample 3: sustainability of ecosystems that assure life | *Universal Declaration of Human Rights *General discussion *Earth Charter | *War robs the dignity of both victims and perpetrators *War intentionally prevents access to basic human needs *Both preparation and the act of war degrade the environment |
